

Loaded with play

Peak climber – climbing across unevenly dispersed ropes or standing on rotating spheres, develop cross-coordination, muscle strength, and balance.

Slide height 7 ft. 9 in. – a thrilling and stomach-tickling experience. Two slides make it possible to slide simultaneously.

Banister bars – the challenge of height stimulates self-confidence, develops muscle strength, and builds bone density when landing.

Wackle bridge – the swaying plates strengthen the sense of balance and posture and support friendly competition.

Moveable hammock – a great meeting point and a swaying comfortable place to relax. Can be placed in various distances to the seat.

Slide height 12 ft. 8 in. – a fun and fast way out to develop the sense of balance and stimulate turn-taking skills.

Themed features – inspire storytelling and dramatic play that stimulates language development.

JUNGLE GIANT

Final designs and data depend on regional safety standards.
Information on inclusion, please see page 61.

Look out from beneath the waterfall, run from the tiger, or climb to the top of the trees. For every child, the jungle is an adventure waiting to happen. Playing here will inspire dramatic play, communication, and physical activity. The straight tube slide is a rush thanks to the high-speed ride. The spiral tube slide further stimulates the understanding of space, speed, and distance due to the 360-degree experience. The leaves, branches, and flowers on the roof and posts make the Jungle a multi-colored and magnificent sight for children and adults.
