

Welcome attendees to the Parks Professional Pathways

NATS Nursery Ltd. is very pleased to once again be the 3 Star Sponsor of this important event.

Our Vision and Expertise

Our company mission is to help provide and restore natural habitats for future generations to enjoy. With this in mind, one of our specialties is growing native plants for use by municipalities and our parks and grounds customers. Our plants are used for habitat construction, urban forestry, restoration and environmental beautification projects among other applications. We are experts in our field with over 33 years growing experience in Langley, BC.

NATS for Native Container Plants

NATS nursery is your native plant specialist. We produce excellent quality plant material for all of your projects, both large and small. Our finished products are available in 4" to 20 gallon containers and some B & B. If you are looking for smaller plants, please also see our Starter Plants (plugs) at www.natsnursery.com.

Our expert staff is always available to answer your questions and help you pick the “right plant for the right place.” We work on projects of all spectrums and sizes, from highway greening, habitat restoration, low impact landscaping, urban forestry, environmental beautification and land reclamation, to urban forestry and green roofs.

It starts with a conversation... find out how NATS Nursery can work for “your” community.

Other NATS Products:

NATS LiveRoof

In addition to native plants, NATS is also the BC grower and distributor of LiveRoof. LiveRoof is a fully-customizable, hybrid green roof system. NATS LiveRoof modules are grown to 95% coverage with full root establishment before installation, resulting in an instant green roof. Contact Shauna for more details.

Permaloc

As a compliment to NATS LiveRoof or on its own as a stand-alone edging product, Permaloc is the world's leading high-performance aluminum landscape edging and restraint system. NATS is BC's primary distributor of Permaloc. Contact Shauna for availability and pricing.

2 Billion Trees Program:

The 2 Billion Trees program aims to motivate and support new tree planting projects. Over the next 10 years, up to \$3.2 billion will be invested in tree planting efforts to support provinces, territories, Indigenous organizations, third-party organizations (for and not-for-profit), and provincial/territorial governments to plant two billion trees across Canada.

Our team of qualified growers will assist you in growing your 2 Billion Trees containers and seedlings, and help you plant the right trees in the right places.
